ReSound Alera™

Sometimes the strongest connections are the ones you can't see

ReSound

rediscover hearing

Strong, invisible connections to the important things in your life...

"The closest thing to what I imagine good hearing is for people without hearing loss."

- Hearing instrument user on the quality of Surround Sound by ReSound

People and surroundings

Enjoy a rich and vivid surround sound experience that seamlessly connects you to the people around you.

Your essential communication devices

Get strong, wireless connections to devices like your TV, mobile phone, computer, and stereo. No wires, cables or extra uncomfortable accessories to wear.

Your individual needs and preferences

Count on a hearing instrument that was carefully crafted to meet your individual needs with moisture protection that works no matter what your lifestyle.

ReSound Alera™

Your essential communication devices

Who wants to choose between watching TV alone, or feeling like you're disturbing other people with the volume turned way up? With ReSound Unite™ TV, you don't have to choose. Now you can easily enjoy comfortable wireless connections to your TV, stereo, computer and phones.

Nano-coating protects down to the core

iSolate™ nanotech, a special moisture protection technology, guards every vital component of your hearing instruments against moisture. As a result, liquid that comes in contact with ReSound Alera™, for example, when it rains or when you're biking or enjoying other physical activity, simply beads up and rolls right off.

ReSound Alera™ connects you to your world

An exceptional surround sound experience, strong and clear wireless connections to your TV and phone and a carefully crafted design all help you connect to the important things in life.

Connect to people and surroundings

- An exceptionally rich sound
- Full awareness of all the individual sounds around you
- Improved ability to locate where sounds are coming from
- Clear sound and complete comfort when using the phone and listening to music
- Personalized automatic-adaptation settings for comfort, even when situations change

Enjoy rich sound and clarity

When you're deep in conversation and there's a lot going on around you, is when you'll really appreciate the rich sound and clarity that the surround sound experience in ReSound Alera™ delivers.

Whatever the situation, you remain comfortable

The exceptional computational power of ReSound Alera™ makes advanced hearing improvement features possible. It also enables ReSound Alera to deliver personalized settings that ensure you stay at ease as you go about your day. You'll be amazed at how ReSound Alera automatically adjusts to changing sound environments.

Advanced features make sure you:

- Experience whistle-free sound, for example: when you're on the phone or when you hug someone
- Enjoy music that's as clear and pure as it's supposed to sound
- Feel comfortable in the different situations you encounter every day
- Understand speech better, even when there's background noise

Note: Wireless capabilities depend on which ReSound Alera™ model you choose, and require the relevant ReSound Unite™ wireless accessory

With the ReSound Unite™ TV streamer, you can:

- Transmit sound directly from your TV to your hearing instruments
- Hear what's going on around you while watching TV
- Move around – even if you leave the room, you're automatically reconnected if you return within 5 minutes

The ReSound Unite™ Phone Clip:

- Delivers crystal clear, feedback-free sound
- Clips onto your clothes or your car's sun visor
- Allows you to leave your mobile phone in your bag or pocket
- 6 hours of talk time, 200 hours of standby time
- Answer and end calls at the push of button
- Easy-to-use volume control
- Easy to recharge through your computer USB port or wall plug (cables included)

Remote control for complete command at a glance

The ReSound Unite™ Remote Control makes it easy to change programs, adjust volume and start streaming sound from the ReSound Unite™ TV streamer and the ReSound Unite™ Phone Clip. The display gives you a visual overview of your hearing instruments settings.

Your personal needs and preferences

- A choice of colors and models
- Models with wireless connectivity
- Personalized settings to match your lifestyle
- iSolate™ nanotech for total protection against moisture
