We are pleased to welcome you to the office of Drs. Trent Quinlan, Patrick Farrell, David Denman, Debora Goebel, and Ryan Sewell. We are board-certified in the specialty of Otolaryngology - Head and Neck Surgery and have superior training and experience in treating both adult and pediatric ENT conditions for you and your family.

## PREMIER PROVIDER OF ADULT AND PEDIATRIC ENT

Our medical practice is limited to adult and pediatric disorders of the ear, nose, sinuses, larynx, head and neck. This includes diseases of the ear, hearing loss, allergic and non-allergic diseases of the nose and sinuses, tonsil and adenoid diseases, obstructive sleep apnea, snoring, voice disorders, and tumors of the head and neck. Please visit our web site for more information about common ear, nose and throat conditions.

ENT Specialists, PC is home to two fellowship-trained pediatric otolaryngologists, Dr. Debora Goebel and Dr. Ryan Sewell. Additionally, Dr. Quinlan has provided pediatric ENT care to children at Omaha Children's Hospital and Medical Center over the past 25 years. The unique qualifications of our physicians allow us to provide comprehensive care for the entire spectrum of pediatric ear, nose and throat conditions.

Thank you for selecting ENT Specialists, PC to serve your ear, nose and throat care needs. For more information, please visit our web site, [www.omahaent.com](http://www.omahaent.com).

## NEW PATIENTS

Please bring the following items to your appointment:

- Health insurance card(s)
- Driver's license/photo ID
- List of all medications you are taking and pharmacy information
- List of all questions/concerns
- Copies of records from doctors related to your sinuses/nose/allergies/lungs (if available)
- CT imaging and report (if available)
- Completed registration forms: patient registration sheet, medical history form, financial agreement (mailed in your welcome packet or can be found on web site, [www.omahaent.com](http://www.omahaent.com))

## APPOINTMENTS

Patients are seen by appointment only. You will be given the first available appointment. If you cannot keep an appointment, please call in advance so another patient may come in at that time.

## TELEPHONE POLICY

Reports on effectiveness of medications, treatment,

or updates on recovery after surgery often can be communicated to the physician through an assistant.

Refills are issued during office hours only, and a doctor must approve the request for refills. Please furnish the telephone number of your pharmacy.

## INSURANCE

We accept most insurance plans, and as a courtesy to our patients, we will file your insurance. Please be sure you have adequate coverage and have followed your insurance company guidelines, including a referral if needed. We accept Medicare assignment and will file with your supplemental insurance company. Our office will help you with pre-certification. If you change insurance carriers, please notify the receptionist.

## FEES

We accept cash, check, Visa, MasterCard, Discover and American Express. Payment plans may be arranged on a pre-approved basis. Full payment of your bill is considered a part of your treatment.

- All co-pays are due prior to treatment
- When surgery is scheduled, your contracted deductible should be paid seven days prior to your scheduled surgery date.

# audiology services

Approximately 1 out of every 10 people suffers from some degree of hearing loss. The impact of hearing loss goes far beyond that of basic communication. It reaches into nearly every facet of a person's life. As something we often take for granted, we don't realize how difficult life can be with impaired hearing.

We are proud to employ two board-certified audiologists, Ken Stallons, MS-FAAA and Misty Mueller, MS, CCC-A. We provide comprehensive audiology services including hearing tests in adults and children. We also provide VNG/ENG testing for balance disorders.

## HEARING AID EVALUATION & HEARING AIDS

If your physician diagnoses a hearing loss, we offer a comprehensive hearing aid consultation. Our board certified audiologists are available for hearing aid evaluations and consultations. We repair and dispense a full line of hearing aids and will assist you in finding the right hearing aid for your lifestyle. We offer real ear measurement, visible speech, video otoscopy, and custom ear protection.
